### COMPLAINT MADE TO MAJOR TAYLOR

Navigators Afraid of Floating, Debris  
Which Threatens Safety of Harbor  
Shipping.

Harbor Master Charles H. Morris has forwarded to Major Harry Taylor, government engineer, a protest against the manner in which the spiles alleged to be used at the Congress street bridge are permitted to float down the harbor. The protest is based upon repeated complaints of captains of vessels using the harbor. Under the direction of the harbor master, much heavy debris supposed to come from the bridge has been dragged ashore.

MERRY R. P. O. CLERKS

### Good Time With Notables at Lighthouse Tomorrow.

New Haven, Aug. 10.—Arrangements were perfected here yesterday for the annual clam bake of the United States Postal Clerks' Mutual association at Lighthouse Point tomorrow. A large attendance is expected. Congressmen Sperry, Hill, Higgins and Henry are among those invited, as well as Postmaster Howarth and others of the postmasters from the most prominent cities in the state.

A full program of events has been planned. Hugh Nellis of Bridgeport is the president of the organization, much James J. Cushing of this city, the secretary.

It was stated last night by the board of managers that over 500 persons had signed their intention of being present at the affair, which will be the fourteenth annual to be given by the Railway P. O. Clerks.

### CASTORIA. The Kind You Have Always Bought.

Sixth Anniversary of Pope's Coronation

Rome, Aug. 10.—The sixth anniversary of the coronation of Pope Pius X. was celebrated with great pomp yesterday. High mass was celebrated in the Sistine Chapel, with Cardinal Merry del Val, the Papal Secretary of State, pontificating.

A large number of the Cardinals, members of the diplomatic corps, and the aristocracy, and several of the Pope's relatives were present. Yesterday afternoon a grand concert in honor of the occasion was given at the Vatican.

### Governor Nails Down Lid in Alabama

Montgomery, Ala., Aug. 10.—Gov. Elmer signed the Carmichael Prohibition bill in the presence of Mrs. J. E. Mall, President of the Alabama Division of the Women's Christian Temperance Union, and other women last evening.

Under this act it is unlawful to sell or to store any liquor containing more than one-half of 1 per cent. alcohol. Lockers are illegal, and the possession of a United States internal revenue license shall be considered prima facie evidence of guilt.

The Fuller bill and the Ballard bill are still pending in the House. They are more radical than the Carmichael bill, and are designed to aid in the enforcement of the latter. Both will be passed. The contest over the bill submitting to the people in November an amendment to the Constitution excluding Negroes from Alabama forever will come up in the Senate to-day or Wednesday.

Some people tolerate roaches and water-bugs in the kitchen, in vain belief that the rest of the family will not find it out. Perhaps they will not, but suppose that some day you would serve a roach in the pie: perhaps then you would wish that you had spent 20c for a box of Cydr.

### Railway Strike Called In Halifax Today

(Special from United Press.)  
Halifax, N. S., Aug. 10.—A strike of 1,600 employees of the Cumberland Railway & Power Company was called today. The men have voted unanimously in favor of a strike and have set today as the limit for negotiations with the company. The trouble is the result of the refusal of the company to recognize the United Mine Workers of America and to grant an increase in the wage scale.

### Old Time Minstrel Barrell Passes Away

New York, Aug. 10.—Wilbur Fiske Barrell, one of the few surviving members of that celebrated band of Philadelphia fun makers, Carocross minstrels, who, in their little Eleventh street theatre, gained a national reputation, died yesterday in his home at 346 Gates avenue, Brooklyn. He was sixty-nine years old.

Mr. Barrell joined the Carocross minstrels when he was a young man, and remained with the company until fifteen years ago, when he retired. During his stage career he was associated with Francis Wilson, Eddie Foy and William Emmett Hill.

son and four daughters, one of the latter being a member of the "Beauty Spot" company, at the Herald Square theatre.

### Kaiser Decorates Ex-President Eliot

Berlin, Aug. 10.—The Kaiser has conferred the Crown Order of the First Class on Charles W. Eliot, President Emeritus of Harvard University, and Yamauchi of Japan; the Crown Order of the Second Class on Sir Caspar Purdon Clarke, director of the Metropolitan Museum of New York, and Hugo Reisinger of New York, and the Red Eagle of the Third Class on Edward Robinson of the Metropolitan Museum of Art.

The last three decorations were given in recognition of the services of the recipients in connection with the exhibition of modern paintings at the Metropolitan Museum during January and February of this year.

### Coral Necklaces Wound About Legs

New York, Aug. 10.—The fast-growing list of confiscated articles in the seizure room of the Custom House received a contribution yesterday from Aaron Greenberger of 331 East Houston street. Mr. Greenberger was a passenger on the Red Star liner Lapland, which reached here after Antwerp late Sunday night. Special Customs Inspector Timothy Donohue, while walking about among the arriving travelers, rubbed against Mr. Greenberger and discovered that he carried a small package.

The package was ordered back on the steamship and there searched. In pocketbook the man carried were found six diamond rings valued at about \$100 and in another pocket were found six more of similar value. Fastened about Mr. Greenberger's legs were strings, from which dangled twelve coral necklaces. He also had eight pair of women's gloves. The goods were seized and Mr. Greenberger will have to explain satisfactorily why he did not declare the articles.

### Telephone Employees Eat Shore Dinner

The Telephone Employees Mutual Benefit Association to the number of about 100, had a day off today, and celebrated the occasion by chartering a special car for Savin Rock, where they enjoyed a shore dinner. The association made its approach known by constantly working a large siren. The sides of the car were decorated with the initials T. E. M. B. in large blue letters on a white field.

### IN LOCAL LODGE ROOMS

The members of Freundschaft Rebekah lodge, I. O. O. F., have decided to hold a shore dinner at Lehmann's hotel, Aug. 25.

Sub Chief Ranger John Lyddy and State Deputy F. T. Canfield visited Court Burnham, Forester of America, last evening.

John E. Lyddy, supreme sub-chief ranger of the Foresters of America, whose home is in this city, is being urged to be a candidate for chief ranger or treasurer of the order. The support of influential members of the order in New York has been pledged. It is very doubtful if Mr. Lyddy will accept the invitation.

## NORWICH GETS CHEAP LIGHTS

Contract With the Uncas Power Company Proving Satisfactory — Charge of 1.1 Cents Per Kilowatt Hour.

Norwich, Aug. 10.—This is the first summer that the Uncas Power company has furnished electricity to the city, so that it is getting watched more than it otherwise would, and because of shutting down because of low water, the steam plant has had to be started a number of times. A number have taken the opportunity to claim that the company had miscalculated its capacity and that the plant would not be able to do what was claimed for it, and they have seen how the power company can be blamed. The very low rate of 1.1 cents per kilowatt hour which is given to the city in the contract was made because it was known that the city had a steam plant which could be used at any time it was required. If the company had contracted for a higher rate, it is stated, although the power could be depended upon the winter or fall, the price could not be kept at that level. The first of September, Norwich now has the lowest price for electricity of any in the state, and except for an abnormal year it will get its power at the lowest cost yet. The drought can be expected only through three months of a year.

## Evelyn Demands \$500,000 Lawyer Morschauer Says

Poughkeepsie, Aug. 10.—Charles Morschauer, Harry K. Thaw's attorney, states that Evelyn Nesbit Thaw is seeking to furnish her family to settle upon her a large sum of money, said to be \$500,000. Ever since Thaw was sent to Matteawan Evelyn has been threatening to sue him for divorce, and many stories about her contemplated procedure have been published. Morschauer summed up the situation as follows:

## Count Zeppelin Plans Another Airship Record

(Special from United Press.)  
Stuttgart, Aug. 10.—Count Zeppelin is so much alive that he will probably be able to make another airship record within a fortnight. The purpose of messages received today from the sanitarium at Constance where the Count is recovering from an operation from a disease in his neck. The physicians in attendance cannot account for the reports of the Count's death, as they say he is at on time has been in the highest danger.

## Forty Infant Victims In Morgue Houses

(Special from United Press.)  
New York, Aug. 10.—Today New York morgue houses forty infant bodies, the greatest number of children there at any time since the General Slocum disaster. Twenty-seven of the victims are from the Foundling Asylum and others from hospitals and institutions. All are direct or indirect victims of the heat wave. Physicians today declare the number of deaths among infants has been appalling. The suffering among the children in the crowded Eastern Side districts is terrible and unless there is some relief today it is believed that the infant mortality will reach an unprecedented total.

It is not alone the children, however, who are suffering from the blanket of heat that is literally making New York gasp for breath. All the hospitals report a large number of prostrations, while five adults have already succumbed to the heat and humidity. Sleep was practically impossible in any portion of Greater New York last night. The Coney Island police declare that 4,000 persons slept on the sands there last night. Under orders from Police Commissioner Baker every public park in New York was thrown open and policemen stationed to guard the sleepers. Whole families fled from the rookeries to the little grassy plots and fire-escapes became popular bedrooms, while on nearly every narrow street in the tenement district, men and women slept in araways and even on their front stoops.

The board of education met last night and approved monthly bills amounting to \$15,152.77. The resignation of Mrs. Lella Coughlin Hamill from the teaching force tendered because of her recent marriage, was accepted. A bill for carrying hire, presented by H. S. Challenger, a member of the board, was questioned. The expense was made necessary by the inspection of the school which is made during the summer season.

### MOVING RAILROAD SHOP

NEW YORK CENTRAL TO LEAVE PENNSYLVANIA FOR OHIO TO RECA HIGH TAXES.

Pittsburg, Aug. 10.—Owing to continued trouble with labor unions and high taxes in Pennsylvania, the New York Central railroad has decided to move its Pittsburg & Lake Erie railroad shops from Pennsylvania to Ohio, and with this object in view, has contracted for a large tract of ground near Hazelton, Ohio, in the Youngstown district, and will take its shops and all its motive power headquarters from McKees Rocks across the line into Ohio.

This means taking the work from about 1,400 men in the Pittsburg district, and many of them own their own homes at McKees Rocks. The workmen will be permitted to retain their jobs if they move with the railroad into Ohio, however.

Recently the New York Central wanted to remove its shops from McKees Rocks to Newell, Pa., thirty miles, but there was such a shout from the unions and threats made to strike that the company was forced to back down. The demands of the workmen and announced that for a time, at least, the headquarters would not be taken from McKees Rocks. In the meantime, time steps were taken to remove the headquarters of the motive power out of the Pittsburg district entirely.

## Little Bright Eyes Overcome in Seance

(Special from United Press.)  
Salem, Mass., Aug. 10.—Overcome by heat at Camp Progress just as she finished a seance, Mrs. May Pepper Vanderbilt, earthly confidant of "Little Bright Eyes" and author of a number of recent law suits in Brooklyn, is today slowly recovering from her prostration. Mrs. Vanderbilt, who had given seances during the day, had just returned to normal condition when she fainted dead away and was only brought back to consciousness after fifteen minutes of hard work. The seances is spending a few days with friends and attending the spiritualistic meetings between times.

## AMERICANS IN EVIDENCE AT REIMS AVIATION.

(Special from United Press.)  
Paris, Aug. 10.—That Americans will be much in evidence at the Reims aviation week, is shown by the fact that twenty boxes at the grounds have already been sold to Americans. They have paid handsome prices for the good seats.

Hotels, restaurants and cabmen at Reims have boosted their prices tremendously.

## \$20 Suits Made to Order for \$12

## PEOPLE'S FORUM

## Boom for Vaccination

Editor of The Farmer, Sir:  
Viewed from the standpoint of its results, which is the only way to read history aright, our war with Spain was one of the most beneficial. We might almost say it was a holy war. It brought an oppressed people out of suffering and taught them self-government. It brought knowledge to ignorance, it enlarged the lives of people ground down by the heel of an oppressor, it helped to irrigate their lands and make them more productive, it taught laws of hygiene and delivered them from former pestilence. It established a general uplift in the life of a people who had always lived on a low level. It presented to the world an example of altruism which might make the world envious and set it up as the foremost nation of the time which all nations may strive to follow.

When Mr. Taft was in our city previous to the presidential election, in his speech to the army he told of his speech in the Philippines, under his own superintendence. He told among other things of what had been done for the promotion of health, for the prevention of disease, of the wonderful but effective stopping of the pestilence of small-pox, and said that there was no example on record in history of such watchful care and such beneficent results of one nation over another.

In further corroboration of the same fact is the speech of Senator Chauncey Depew in the United States Senate, July 18, 1909, on the subject of appropriations for Porto Rico. This speech gives us some further facts on what our government has done for the people of Porto Rico.

Limiting our quotation to what has been done for the health of the people we quote: "In January, 1899, the Medical Corps of the Army undertook to overcome small-pox, which was devastating the island. Of the 1,000,000 inhabitants, 800,000 were vaccinated, which was the most destructive of epidemics among the people, was practically eliminated. I do not think in the history of a people in the world has there been accomplished in the same period of nine years, the eradication of two such deadly diseases causing such frightful results upon life and upon industry as in this relief to this people from small-pox and anemia."

Bridgeport Medical Association.  
Against Unsexing Law

Editor of The Farmer, Sir:  
I notice that a bill has passed the House at Hartford, permitting the unsexing of a certain class of females called degenerates. This bill confers upon certain men of the medical profession power with which no human being ought to be entrusted. What degeneracy often times but a matter of environment. Is it not a well known fact that children of these same degenerates when placed in a suitable environment make reputable citizens? Has medical science become all at once such an exact science that the state can afford to confer on one class of men who generally get appointed to public institutions the privilege of determining this question. Have they shown such superior wisdom that they should be entrusted with such powers? Why is not this law made operative in both sexes? Are there no degenerates also? Perhaps the doctor was looking out for his own safety. In my opinion the first one to be acted upon under the law is the man who in the light of the 26th century civilization and progress could have the unparalleled effrontery to present such a bill.

MAJ. THOMAS BOUDREN.

CASTORIA. The Kind You Have Always Bought  
Bears the Signature of Dr. J. C. Williams

Don't Forget the Moonlight  
The people of Bridgeport are to have a good time at last. Elite club is going to furnish shape of their moonlight. Thursday night, August 12th, will furnish the music for the and there will be a concert vocalists besides. People who good time and enjoy an evening the water these nights at miss it.
